

Driving directions from the Visitors Inn to McMaster

For those staying at the Visitors Inn, please be aware of the unfortunate one way, east bound system for Main Street. It is rather short and direct to get from the McMaster Campus to the hotel, which is east of the campus. However, because of the location of the hotel, for getting to the campus, you have

1. turn right coming out of the Visitor's Inn parking lot,
2. proceed eastbound along Main St to the next lights, which is Dundurn St.
3. Turn left on Dundurn, down to the next street which is King St.
4. Turn left onto King St.

For registration on Thursday, follow King St. all the way to the University. You will see the Hospital parking directly ahead at Forsyth St.

1. Turn right to Sterling St.
2. Turn Left into the campus and use the ASA Campus map to direct you to the Commons for registration.

For daily commuter parking and for registration on Friday and beyond,

1. take the same initial route to King St, turn left onto King St., and
2. just past the 403 overpass you will see King St. split left and right.
3. Take the left turn to Main St. and stay to the right to get on to Main St. West.
4. Just past the McMaster Medical Centre there is the University Ave entrance to the campus. Turn right, into the campus,
5. then left onto College Drive, and follow that until you see the parking lot I for the daily commuters. Again, use the ASA Campus map to help direct you once you are on campus.

It would be useful for people staying at the Visitors Inn to car pool, or to share a cab. As was said, it is much easier getting back to the hotel, straight along Main St, then to get from the hotel to the campus. Please make appropriate time allocations.

If you are going by cab, it would be easiest to have you dropped off at the corner of King St and Forsyth, by the hospital underground parking. It is just a short walk to MDCL, our meeting place, from there. Again, see the map.
