An Inclusive Science and Faith Message for the Media

Dr. Hank D. Voss, hnvoss@taylor.edu
Taylor University, Upland, IN
(Please email or talk with me during conference Cell 765 618 3813)
Note: Taylor University and ASA not responsible for content.

American Scientific Affiliation (ASA) conference,
July 21, 2012, San Diego, CA

The Heavens Declare the Glory of God! Psalm 19:1
The Greatest Question:
Origins...Where did we / everything come from???

- Problem and Background
- A Converging Baseline Creation (BC) Message Using Gen. 1
- Exo-planets and early earth without “form and void”
- First Day 1 Light and Giant Impact
- Days 0-6 and Mainstream Science
- Huge Media/Society Implications
Origins Problem

(Secular) Random Evolution (RE)
Theistic Evolution (TE)
Old Earth Creation (OE)
Young Earth Creation (YE)

Poll surprising considering strong promotion of RE (>Billions $/yr.) by:
• Media (video, radio, news, …)
• Government Science and Education
• Professional Societies (bylaws, journals)
• Public Universities
• K-12 Education
• Museums, Zoos, National Parks

A Large Market for Connecting Mainstream Science to Bible/Belief?
“Limitations of Science”
Mainstream Speculations: Pseudoscience

Attempts to substitute “God” (Science as a Religion)
• A Quantum Fluctuation creates the Universe
• Multiverses to explain our fine-tuned Universe
• Godless Grand Unified Theory of Everything (GUT)
• Abiogenesis of Life in Galaxy (Drake Equation)
• The Higgs Boson: The “God Particle” (SM particle)
• And more presented in our classes and textbooks

Good Science follows the Data (Points to a God! or?)
• The Universe has a young 13.7B beginning (was repulsive to secular scientist)
• The Universe will expand forever without contraction (Only one beginning)
• Our universe is specially crafted/fine tuned (Anthropic Principle: Multiverse?)
• The Earth-moon formed with a highly improbable collision (Catastrophe)
1 Cor. 13:12 For now we see through a glass darkly but then face to face. For now I know in part...

The Plumb line of Truth

Interpretation of science

Interpretation of the Bible

Science-Bible Convergence?

False ideas, Steady State, Eternal cosmos, Uniformity (No Catastrophes: Continental Drift, Asteroid Impacts), Moon Origin, All Mechanistic, No Dimensions/other realms, ...??

False Interpretations (hermeneutics), Cults, Geocentric, thunder, medicine/ surgery, Y2K, relativity, time not variable, Size of Universe, Age of Universe, Gen 1?, Hominids, ...??

Christian Worldview encouraged search for order in Science Renaissance
### RE, TE, OE, and YE Reference (see ASA website for definitions)

- Is it not better if Genesis 1 describes **BOTH** a literal sequence of physical creation events **and** a more abstract layer of spiritual, poetic, and ancient cultural meaning?
- Genesis 1 sets the foundation for **Biblical Interpretation** and shows God’s attributes (omniscience, omnipotence, omnipresence, and omnibenevolent). In addition, our fundamental cultural Worldview is shaped by the reality of God and scripture. Genesis 1 is stronger if it is **Both** literally and functionally correct (Inspiration).
- **Baseline Creation (BC) Message Objectives:**
  - To humbly understand **truth** with harmony. Eph. 4:25, “Speak truth each one of you with his neighbor”, Ps. 19:1-4 “The Heavens declare the Glory of God”
  - Motivate Christian **students** to pursue geoscience and STEM Fields
  - Motivate the **public** to understand that mainstream scientific data can strongly underpin Creation
  - For Media Impact need a unified cohesive theme (Exciting **Storyline Script**)

---
### 25 parallels between Genesis 1 “Storyline” and Mainstream Science

Voss, ASA, 8/21/2012
Baseline Creation (BC) Main Message

- **Good Science:** A Genesis 1 Update Consistent with portions of Mainstream Science and Reasons to Believe Creation Model (RTB, Ross). Twenty Gen 1 events in harmony with mainstream science.

- **Inclusive** of RE, TE, OE, and YE interpretations of Nature and Scripture
  - Genesis 1: Both Literal physical OE sequence and ancient TE overlay of Function
  - Genesis 1: Each “Fiat” or Command (≤24 hrs, YE, Hayward) can also be connected to the Functional creation (Walton). In each Fiat God commands the functional “Curriculum” or “Blueprint” to be executed.

- God can interact directly in nature or through control of “random events” from another “dimension”.

- **Semantics:** “Highly Improbable” (CHANCE) ↔ Miracle (CREATION)

- **Time:** Relatively young 13.7 B Universe age. Day 1-6 each initiated by the 24 hr Fiat Command (Hayward) that provides time between the days (parenthesis) for damping dynamic responses.
  - Gen 1: Day 0; Universe Creation in seconds followed by natural unfolding
  - Gen 1: Day 1; Light: Brightness from earth greater than from our Sun (≤24 hrs)

- **Evangelical Students** give high marks for connecting Bible and Science

---

**Example of BC Model**

  - Universe Function, Plan

- **DAY 2, Fiat 2, <24hrs**
  - Function, Plan, Command Atmos., Extremophiles

- **DAY 4, Fiat 4, <24hrs**
  - Function, Plan, Command Clear Atmos., Marine
Mainstream Science

Gen. 1:1, “Day 0”
Heb. 11: 3, ESV
“By faith we understand that the universe was formed at God’s command, so that what is seen was not made out of what was visible”. 
"Day 0"

Instant Expansion of Universe from Nothing

Radius of observable Universe (cm) vs. Time (seconds)

- (Approx. $10^{12}$ ly)
- (Approx. 100 ly)
- Inflation

Big Bang Expansion
13.7 billion years
Hubble’s Law. $v = H \cdot d$

Equation of line $y = m \cdot x$

Geocentric view from any location, http://universe-review.ca/F02-cosmicbg.htm

“Day 0”
Evidence For Rapid and Big Creation Event

• Galaxies Moving away from each other. The further away the faster (Hubble’s Law)

• Cosmic Background Microwave Radiation (CBR 2.7K) consistent with hot bright light in beginning

• Amount of H2, He, Deuterium, isotopes consistent with Initial hot gas expanding

• General Theory of relativity predicts expanding (and accelerating) universe

• Biblical evidence (beginning, *ex nihilo*, stretches out, light,..)
**T0: “In the Beginning God Created the Heavens and the Earth”**

*Universe Unfolding in a State of Decay*

**Creation Time 0 = CT0**

- **CT0, <24 Hr, Fiat**
  - Universe Function, Plan

  - Exoplanets, Earth Formation

- **CT0, Universe still Unfolding, Stars still Forming**

- **CT0 Fiat**
  - *Ex nihilo*
  - Light EM

- **CT0 Fiat**
  - Cosmic CBR, +0.3 M yrs.

- **CT0 Fiat**
  - Accelerated Expansion

(Mainstream Science)

Voss, ASA, 8/21/2012
Genesis 1:2  “And the earth was without form and void and darkness was upon the face of the deep”
Job 38:4-9 "Where were you when I laid the foundation of the earth? ...When I made a cloud its garment, And thick darkness its swaddling band"

We now know for certain the existence of planets around other stars: Exoplanets

As of June, 777 confirmed planets
About 50% or Sun like stars have a planet

Maybe one in 10,000+ stars will have an earthlike planet in the Habitable Zone (HZ) with a global water ocean (now called Waterworld or Ocean planet).
Ocean Planets: GJ 1214 b, Kepler 22b

- An ocean planet (also termed a waterworld) is a type of planet whose surface is completely covered with an ocean of water.
- Planetary objects that form in the outer solar system begin as a comet-like mixture of roughly half water and half rock by mass. Simulations of solar system formation have shown that planets are likely to migrate inward or outward as they form, presenting the possibility that icy planets could move to orbits where their ice melts into liquid form, turning them into ocean planets.

(Description from Wikipedia)
Earth’s First Atmosphere (4.5 B)

- Hadean Period; H2, He, H2O, CO2, N2, NH3, CH4, CL, S
- About 100+ Atmospheres like Venus.
- Before Giant Impact Event

© 2005 Pearson Prentice Hall, Inc
Data Based on NASA Exoplanet Data Base, See Wikipedia
Exo-planetary Systems Compared to our Solar System

Star Intensity, distance, size, density, description, HZ

Distinctions:
- Unknown Radius
- Unconfirmed Planet
- Unknown Mass

5778 K, G2, 4.6B, Sun
5681 K, G4V, 7.834B, Kepler 11
3484 K, M3V, 4.326B, Gliese 581

Densities (g/cm^3):
- 8-10
- 6-8
- 4-6 Earth
- 2-4 Super Earth
- 0-2 Gas Giant

Radii (similar to):
- Mars
- Earth
- Super Earth
- Neptune
- Jupiter
- >Jupiter
Eccentric orbits of Exoplanets

Unlike Solar System

- Orbital Planes often misaligned and titled (inclination variable)
- Some planets in retrograde motion to their star’s rotation
Exo-planet relevance to origins

“Many Not Like Our Solar System”

• **Numerous** ~50% of sun like stars have planets. Supports the natural formation of planets from nebular debris (unfolding of initial creation and efficient generation of exoplanetary systems)

• **Orbital Chaos** suggested from many Hot super-earths and Hot gas giant planets located very near their star (<0.4 AU) and show elliptic orbits

• **Much time** must have passed due to observed tidal locking resonances, major orbit alterations, and thermal time constants

• **Scarce Solar Systems** like ours with an earth type planet in the Habitable Zone but possible. (e.g. “Ocean” or “Waterworld” earth)

• Based on **Rare Earth / Privileged Earth** arguments, a “Waterworld” would be expected to be “without form and void with darkness over the waters ”.
Scientific Reference Frame for Days

• **Genesis 1:2** *And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters.*

• Our Omnibenevolent Creator made a site visit over the surface of our earth to personally bring about the transformation of our earth.

• Of great significance, Gen 1:2 identifies the observing frame for creative days (1-6) as the earth’s surface.

• Phenomenological (appearance, e.g. “sunrise”) perspective for observer viewing and recording the creation events.
DAY 1 Light

Fiat: Gen. 1:3: “And God Said let there be Light”

... Gen. 1.5: “and Evening and Morning were the first day”

• The greatest light show ever on earth! ....According to mainstream science the earth’s surface radiation was much brighter than the sun during a 24 hour period and remained bright for many weeks afterward.

• Evening First! On Day 1 complete blackness (evening) changed to bright light (morning) giving consistency to the strange order of Gen. 1:5.

• First Day! In < 1 hr. earth’s rotation rate went from slow to 5 hrs/day.

• “Lesser Light” formed! Moon formed with many desirable legacies. Importance of the moon for Life on Earth (Spradley, 2011).

• Earth Structure reborn! Iron core and mantle growth (suitable for plate tectonics, strong magnetic field), stronger gravity, thick poisonous atmosphere removed, ... .
Day 1 Light: Earth Darkness to Brighter than the Sun (Conceptual)

Brightness $W/m^2$

- **Darkness**
  - Surface of the Sun
  - Maximum Eye Threshold
  - Minimum Eye Threshold

- **Light – Night/Day**
  - Giant Impact: $6.5 \times 10^7 W/m^2$
  - Shoemaker-Levy 9: Spin 5 hr/day, $150 W/m^2$
  - 1.5 $\times 10^{-9} W/m^2$

Pre-Impact Day
No spin – Slow Rate

“Day 1”
Evidence for Giant Impact

• Miraculous with just the right angle, glancing impact point, energy, mass, composition, timing
• Explains earth’s tilt, spin rate, high angular momentum, lunar mass, soil composition, Iron poor, isotopes, ages, low lunar density, low volatiles, and others
• Science: Always open to new data.

Artist's depiction of a collision between two planetary bodies. Such an impact between the Earth and a Mars-sized object likely formed the Moon (Wikipedia image)
Giant Impact-Moon

- $10^{31}$ Joule
- $10^{17}$ Atom Bombs
- 1 Billion Shoemaker-Levy 9

Shoemaker-Levy 9

- $10^{22}$ Joules
- $10^{8}$ Atom Bombs
Refinement of RTB Baseline model with Fiats (24hrs Hayward) and Function layer.
The following creation timeline reflects an integrative approach to biblical interpretation known as “concordism”, belief that the facts of nature, as discovered by scientific investigation, will be discernibly consistent with Scriptural statements about the natural realm. This interpretive approach, like any other, involves certain assumptions about both science and Scripture, and is (like any other human endeavor) subject to imperfection and imprecision. Typically the sequence of events is known with more precision than the timing of specific events in the creation scenario. As new evidence emerges, date estimates may be revised.

**First fish and shelly invertebrates, Cambrian Explosion (Tommotian and Atldbanian periods) (~543 mya)**

Some scientists believe first land plants arrive (~650 mya)

**Cyanobacteria and other phototrophs (~2.7 bya)**

**Stable water cycle established (3.0-3.8 bya)**

**Stromatolites and microfossils (~3.5 bya)**

**Oceans become permanent (~3.8 bya)**

**Isotopic evidence for life (~3.85 bya)**

**Moon forms (~4.5 bya)**

**Earth forms (4.5662 bya ± 0.0001)**

**Microscopic eukaryotes (~1.9 bya)**

**Modern humans (~0.05 mya)**

**Earliest mammal fossil (~125 mya)**

**Earliest winged birds (~155 mya)**

**Oldest dinosaur fossil (~230 mya)**

**Oldest reptile fossil (~340 mya)**

**Earliest terrestrial animal fossil (~346 mya)**

**Vascular plant fossils (~425 mya)**

**Earliest fossil land plant spores (~520 mya)**

**“Days 0-6”**

Other Ways of Knowing:

• Purpose and first cause,
• The existence of moral law,
• The existence of personality and servant sacrifice (love, empathy),
• Historical evidence of Biblical statements,
• Personal experience,
• Scripture Prophecy and scientific credibility,
• The weakness of alternative non-Christian models (e.g. Multiverse),
• Aesthetics/beauty
Star of Bethlehem- BC Example

- Evangelical student views: Supernova, Comet/meteor/sky, Supernatural light, North Star, Conjunction of stars/planets, myth/legend, other?
- Bible Star requirements: It signified birth/kingship, connection with Jewish nation, rose in east, appeared at precise times, It endured over many months, it was ahead of the Magi as they went south, it stopped over Bethlehem.
- Adopted by secular world to show in planetariums: Dismiss poor science (Supernova, comet/meteor, North star). Show sky and teach showing a highly improbably event in 2-3 BC (multiple encounters of the King Planet with the King Star with retrograde motion in the constellation Leo the Lion associated with Judah, Gen. 49:9, and other connections).
What was the Star of Bethlehem?

Scholars argue whether the Star of Bethlehem was a legend created after the fact or a miracle created by God especially for the occasion of Christ's birth.

But if it was a real astronomical event, what could it have been?

See website by Griffith Observatory:
http://askelm.com/video/real/xmas_star.htm
